

BEFORE WE START

- This report Manual is intended for the Technical Review.
- The HF-One must be cleaned and disinfected between trials.
- For further assistance, please contact your Renata Limited representative.

TABLE OF CONTENTS

1. OVERVIEW.....	1
2. INTENDED USE.....	1
3. WARNINGS.....	2
4. Mechanical part:.....	3
4.1. Components.....	3
5. Electrical Part.....	5
5.1. Components.....	5
6. working principle.....	7
7. safety alarms.....	8
8. Test reports.....	10
8.1. Test – 1: (Flow test).....	10
8.2. Test – 2: (Temperature, Rh% test).....	11
8.3. Test-3: (Alarm test).....	12
Test-3.1: (Over pressure Alarm test).....	12
Test-3.2: (Leakage Alarm).....	13
Test-3.3: (High Flow Alarm).....	14
Test-3.4: (Low Flow Alarm).....	15
Test-3.5: (Power Failure Alarm).....	16
Test-3.6: (Circuit Block Alarm).....	17
9. certification of calibration.....	19
10. material of construction cerificate.....	19
10.1. Body Frame.....	19
10.2. Teflon Use.....	19
10.3. SS316.....	19
10.4. Others.....	19
11. REcommendation.....	20
